

FOR IMMEDIATE RELEASE

**FUJI XEROX LAUNCHES A SPACE-SAVING,  
A4 LED MULTIFUNCTION DEVICE FOR SMB MARKET****THREE-IN-ONE DOCUPRINT CM200 B**

**TOKYO, September 11, 2013** – To strengthen its lineup of DocuPrint series targeting the small and medium business (SMB) market, Fuji Xerox Co., Ltd. will launch DocuPrint CM200 b—A4 Light Emitting Diode (LED ) multifunction device equipped with copy, print and scan functions—starting October 1, 2013.

With high productivity capable of printing 12 pages per minute (ppm) in color\* and 15 ppm in monochrome\*<sup>1</sup>, DocuPrint CM200 b measuring at 410 (width) x 389 (depth) x 318 (height) millimeters is designed to be placed next to a user's desk. Succeeding the durability and high cost performance demonstrated in the current DocuPrint series, the new model is an affordable and environmentally-friendly entry LED multifunction device for the SMB users.

With the expanded lineup of the DocuPrint series, Fuji Xerox aims to further promote its business targeting the SMB market by meeting their demands for high quality, simple operability, high environmental performance and cost performance. Together with its channel partners, the company will offer high added values through its quality maintenance services to contribute to the SMB users.

\* A4 long edge feed, when printing the same document with plane paper.
