

## Jointly develop disaster prevention application for Indonesia with local ministries

RC Solution Co., Ltd., of Shinjuku, Tokyo (CEO: Akira Kuriyama) jointly developed the disaster prevention application “Slim Sumut” with BMKG (Badan Meteorologi, Klimatologi, dan Geofisika) in North Sumatra Province, Indonesia.

Indonesia is known for its many natural disasters such as earthquakes, tsunamis and volcanic eruptions. As part of our disaster prevention efforts, we have been discussing with North Sumatra BMKG since January 2018 and jointly developed official applications.

### ■ About Slim Sumut

It is a disaster prevention application covering all weather information of North Sumatra Province in Indonesia released in October 2018. Information is provided by BMKG in North Sumatra Province.
