

THE EXECUTIVE CENTRE

THE EXECUTIVE CENTRE EXPANDING TO MEGURO

New Centre opens in “Meguro Arco Tower” this Autumn

[JAPAN, 1st July 2020]

The leading premium flexible workspace provider in Asia Pacific, The Executive Centre (TEC), is set to open an additional Centre in Tokyo’s Meguro Arco Tower this Autumn. This grand opening further expands The Executive Centre’s strong foothold in the Japan market following the recent expansion of Roppongi Hills North Tower in September 2020. TEC has already built a robust presence in Tokyo and Yokohama and these latest expansions are in response to a remarkable increase in demand for TEC’s premium

workspaces. The new “Meguro Arco Tower” Centre will feature bespoke Japanese designs bringing their high-quality and luxury ‘look and feel’ to life for their growing global membership of more than 27,000+ Members.

TEC's New Centre located in the latest major hub for international companies, Meguro Arco Tower

Meguro Arco Tower is a premium office complex with a strong tenant profile including many international corporates and local organisations. The building is located within 5 minutes walking distance from Meguro station, which provides easy access to all of Tokyo's central business districts and faces the beautiful riverside and has stunning views of the famous Meguro cherry blossoms in Spring.

Opening in October on Level 7, the new Centre is spacious and artfully designed with a total of 2,845 sqm of space and consists of approximately over 500 workstations. In line with TEC's premium design philosophy, this new Centre will offer the very best in terms of both aesthetics and functionality. The design of the new Centre integrates nature into the

office space. Inspired by the traditional principles found in Japanese aesthetics, harmony with nature are perfectly articulated throughout the premium design of the new workspace, from the circular gates to the Coworking booths, natural elements such as the use of wooden and stone flooring, flooring with pebbles representing unity and harmony can be found. The Centre includes a thoughtfully designed Barista Bar area and lounge which is served by an onsite barista who prepares freshly brewed coffee. Additionally, distinctive TEC elements such as Timothy Oulton furnishing, Herman Miller chairs, 9AM height-adjustable standing desks and Cisco telephone systems are all part of the premium design elements of the Centre.

The launch of the new Meguro Arco Tower Centre and expansion at Roppongi Hills North Tower demonstrate TEC's confidence in the flexible workspace industry and the strong demand for their products and services from a growing global Member base. TEC is always on the lookout for prestigious locations in Japan and beyond, with a strategic expansion map for Japan, China, Hong Kong, Korea, India, Singapore, Taiwan and Vietnam in the near future.

About The Executive Centre

The Executive Centre (TEC) opened its doors in Hong Kong in 1994 and today boasts over 135+ Centres in 32 cities and 14 countries. It is the third largest flexible workspace business in Asia with annual turnover in excess of US\$275 million.

The Executive Centre caters to ambitious professionals and industry leaders looking for more than just an office space – they are looking for a place for their organisation to thrive. TEC has cultivated an environment designed for success with a global network spanning Greater China, Southeast Asia, North Asia, India, Sri Lanka, the Middle East, and Australia, with sights to go further and grow faster. Each Executive Centre offers a prestigious address with the advanced infrastructure to pre-empt, meet, and exceed the needs of its Members. Walking with Members through every milestone and achievement, The Executive Centre empowers ambitious professionals and organisations to succeed.

Privately owned and headquartered in Hong Kong, TEC provides first class Private and Shared Workspaces, Business Concierge Services, and Meeting & Conference facilities to suit any business' needs.
